SIXTIETH

ANNUAL REPORT

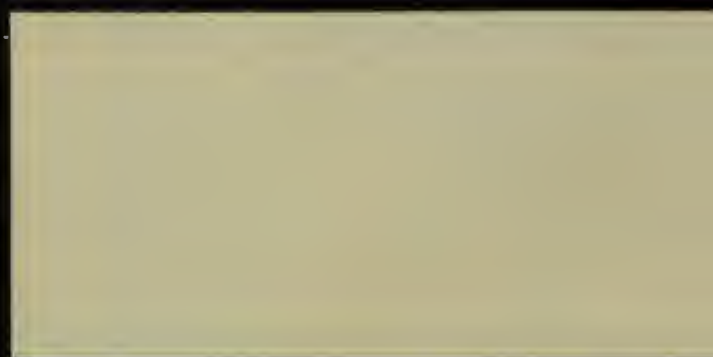

In presenting this report to the subscribers the Directors desire to express their thanks for the generous support accorded during the past year, and they confidently appeal for a continuation and extension thereof. The needs of the Institution are great, and funds are urgently needed to meet the current expenses. At the close of the financial year on September 30th there was a debt on the Building Fund Account of £2397 8 6, and one on the General Fund Account of £1587 12 8. Special donations to extinguish these two debts will be thankfully received and acknowledged.

WILL YOU HELP?

Subscribers are respectfully warned against giving their contributions to unauthorised collectors. Our city representative is Mrs. E. R. C. HALL; Miss Winifred Price for the country, and Mrs. E. Cross for the suburbs. These collectors are provided with authority to collect and printed forms of receipt.

In some of the country towns friends have undertaken to collect and have been furnished with printed subscription lists.

W. H. SIMPSON, President;
JOHN STEWART, Hon. Treasurer,
ARTHUR H. LOVE, Hon. Secretary,

INSTITUTION FROM THE NORTH.

NOTES ON THE EDUCATION OF THE DEAF.

A child born deaf, or becoming deaf in early infancy, has on entering school no knowledge of language. The only knowledge he has is purely sense knowledge; he has no knowledge of the significance of words—whether written, spelled on the fingers, or spoken. The hearing child learns to speak by imitating the sounds and words he hears from the people around him, and develops a knowledge of language from his earliest years. When he arrives at school age, he is in possession of an extensive knowledge of the English language, and has received the mental development which is brought about by the acquisition and use of language. The deaf child, because of his deafness, does not learn to speak, does not acquire any knowledge of language, and misses much of the mental development that should be going on from babyhood to the age at which school life begins. He remains in intellectual infancy until he is placed under instruction, and it is desirable that his education should be begun at as early an age as possible, while there is some definite relationship between his mental and physical growth. The greater the gap between these, the more difficult is the work of education, and the highest results are secured in the cases of children who enter school at an early age.

The acquisition of the English language is the basis of the education of the deaf. Instruction in the ordinary school subjects cannot be attempted until the pupil has sufficient language to enable the communication of the necessary ideas, and according to the degree of appreciation of language which necessarily varies with the varying intelligence of children, is progress made in other subjects. The development of language in a congenitally deaf child has been likened to the acquisition of a foreign language by a hearing person. This, however, is not a suitable illustration. The hearing person has all his knowledge of his native language to assist him in the interpretation of the foreign; whereas the deaf child, cut off as he is by his deafness from all knowledge of the vernacular of his country, has no such assistance.

The aim of the teacher of the deaf in developing a knowledge of language in his pupils is to follow, as nearly as possible, the manner in which the little hearing child acquires his knowledge in the natural way. All our methods and systems are based on the laws governing the acquisition of language by normal children.

There are two main methods of imparting instruction to deaf children—the ORAL METHOD and the SILENT METHOD. In the former, Speech and Speech-Reading are employed, and in the latter the Manual Alphabet; Writing being common to both. The choice of method for individual children is decided from considerations of age, condition, and capability.

The ORAL METHOD seeks to give the child an intelligible speech, and the ability to read from the lips the language of everyday life. The sounds employed in our language are taught separately, in the order of increasing difficulty. As the progress of the child permits, these sounds are combined into words, of which he is taught the meaning, and the words into phrases and sentences, very simple in the early stages, but gradually and continuously expanding.

In the SILENT METHOD, the letters of the alphabet are taught on the fingers. Its aims are similar to those of the ORAL METHOD—the only difference being that Speech and Speech-Reading are not attempted, the Manual Alphabet taking their place as a means of communication and of imparting information.

Both methods abound with difficulties, which continue throughout the whole of the child's school career.

It will be gathered that the work of educating the deaf cannot be compared with that of normal children. No comparison can reasonably be made between the attainments of deaf and hearing children, but there is every prospect that if a deaf child of average intelligence be placed under efficient instruction at an early age, he will, at the end of his school career, be in possession of a satisfactory knowledge of his mother tongue, and have received such instruction in general scholastic subjects as will enable him to take his place in the outside world.

Education for the deaf is an imperative necessity, because—

1. It establishes a means of communication with other people by speech or finger-spelling, and writing; and removes the isolation of earlier years.
2. It develops in the deaf child a knowledge of his mother tongue, and provides him with materials for thought, and with the means of communicating it.
3. It enables him, to a greater or less degree, to avail himself of the opportunities afforded for self-culture by the literature of his country.
4. It develops in him principles of honor, candour, and self-respect; and gives him a better and wider outlook on life.
5. It enables him to compete with his hearing fellows in industrial life, and to become a self-respecting and respected citizen; and in many cases prevents him becoming a useless burden on society.

The foregoing statement will give some idea of the magnitude of the work of the education of the deaf, and of the immense issues to the child and to society involved in the question. It will be readily understood that in order to accomplish the best that can be done, a deaf child should be placed under suitable instruction at the earliest possible age. Experience shows that the best and most effective means of educating deaf children is in such an institution as New South Wales possesses in the Sydney Institution. Parents are naturally reluctant to send their children away from home at an early age; but having regard to the tremendous issues at stake, it is almost inconceivable that they should (as unfortunately some of them do) allow false conceptions of kindness and affection to stand in the way of their child's educational advancement.

SIXTIETH ANNUAL REPORT OF THE

New South Wales Institution for the Deaf
and Dumb and the Blind.

For the Year Ended 30th September, 1921.

The Board of Directors have pleasure in submitting the following report on the operations of the Institution during the past year:—

PUPILS.

The following table gives the number of children under instruction during the year and the number still on the roll:—

	Deaf & Dumb		Blind		Deaf and Blind	Totals		Grand Total
	Boys	Girls	Boys	Girls	Girl	Boys	Girls	
On the Roll								
Sept. 30, 1920	50	42	22	12	1	72	55	127
Admitted since	8	8	4	4	..	12	12	24
	58	50	26	16	1	84	67	151
Graduated, or								
Withdrawn	8	8	4	3	..	12	11	23
Now on the roll	50	42	22	13	1	72	56	128

The number of pupils on the roll is one more than it was a year ago. The admission of several other children has been sanctioned, but they have not yet entered the school. Forms of application for the admission of other children have been sent out, but have not been returned, hence the number of pupils is not so large as it should be, and some children are being deprived of the education they so sorely need. The necessity for compulsory education for these afflicted ones is once more strongly advocated, and the Directors hope that an Act of Parliament for this purpose will be passed during the coming year and brought into operation.

The health of the children has been satisfactory; a few minor cases of illness have occurred. Too much

praise cannot be given to the Hon. Medical Officers for their kind and skillful attention to the pupils whenever their services were required; and to the Matron, Mrs. Clarke, and her staff for their care of the children at all times.

In October last, Dr. George E. Rennie, Hon. Physician and Hon. Medical Inspector, made his annual examination of all the pupils in the Institution and reported thereon as follows:—

I have the honour to report that I have now completed the physical examination of all the children in the Institution at present.

1. The general health of the children is good.

2. In no case was there any evidence of physical disease apart from the special defects of sight and hearing.

3. In most of the children there was a normal development in height, weight and chest expansion.

4. In only very few cases was there any Albuminuria.

5. In some few cases there is evidence of mental defect, over and above what can be accounted for by the defect of sight or hearing. These children will probably not benefit by further education in the Institution but will require to be kept under control somewhere.

At the invitation of the Board Inspectors from the Department of Education visited the Institution on the 12th and 13th September for their annual inspection.

Extracts from their report are appended hereto.

Further information in regard to the work of the school will be found in the report of the Superintendent.

FINANCIAL.

The Directors regret to say that the income during the past year on General Fund Account has not been sufficient to meet the expenditure. An additional collector was appointed for the suburbs, and there has been an increase in the volume of subscriptions, but still the income has not kept pace with the expenditure. To obtain and retain an efficient staff increased salaries and wages have had to be paid, while the cost of everything needed by the Institution to enable it to carry on its work effectively has been very great, consequently the overdraft with which the year commenced has been considerably increased. This is a matter of great concern to the Directors, who earnestly appeal for additional contributions so that the good work of the Institution may be carried on efficiently.

The year commenced with an overdraft on the	
general fund account of	£630 6 3
The expenditure was	11,269 14 0
	<hr/>
	11,900 0 3

while the income, including a discount	
of £321/17/6 on the re-investment of a	
portion of the Perpetual Subscribers	
Fund, was	10,312 7 7
	<hr/>
Leaving a debit balance of	£1,587 12 8

There is also a debt on the Building Fund Account of £2397/8/6. The Directors are anxious that these two debts should be extinguished as soon as possible.

A special donation of £100 towards the Building Fund debt was received from the Hon. Henry Moses, M.L.C.

A special donation of £250 was also received from Mr. and Mrs. Thomas E. Rofe as an endowment fund and has been set aside towards the maintenance of a convalescent ward.

The undermentioned legacies and donations have been received and placed to the credit of the Perpetual Subscribers' Fund:—£309/19/3 (making a total of £459/19/3) from the estate of the late Miss Eliza Warlters; £100 from the "Walter and Eliza Hall" Trust; £91/13/4, being proceeds of a legacy of £100, less probate duty, from the estate of the late Maurice Moran; £100 from the estate of the late William Wairren; £300 (making a total to date of £1050) from the estate of the late George Beeby; £100 from the estate of the late Miss M. A. Dickson; £71/10/. (making a total to date of £663) from the estate of the late James Bartlett; and £200 from the estate of the late Miss Elizabeth Agnes Baylis.

The amount allotted to this Institution by the United Charities was £225, for which the Directors are extremely thankful.

The attention of our wealthy citizens is earnestly invited to the needs of the Institution in the hope that further donations and legacies may be forthcoming. The education and maintenance of the blind and deaf children of the State is an object which should appeal with the utmost force to every person in the community, and no

better avenue for the disposal of surplus wealth could possibly be found. The children are heavily handicapped by deafness or blindness and, without education, are practically helpless. If efficiently educated, they are capable of becoming useful and self-supporting members of the community.

A number of friends in the country districts have again rendered excellent service in collecting subscriptions, for which the warmest thanks of the Board have been conveyed to them.

BOARD OF DIRECTORS, LADIES' VISITING COMMITTEE AND HONORARY STAFF.

It is with the deepest regret the Directors have to record the death in England of Mr. James Montague Sandy, who, prior to his departure for England, was an esteemed and useful member of the Board. A letter expressing the sincere sympathy of the Board was sent to his son to be conveyed to Mrs. Sandy and other members of the family.

The Hon. William Brooks, M.L.C., director, was granted leave of absence in March last on the eve of his leaving for England. The Directors hope to have the pleasure soon of welcoming Mr. Brooks on his return.

Mr. Frederick Phillips, who had filled, with the utmost satisfaction to the Board, the office of Honorary Treasurer for 27 years, having expressed a desire to retire from the position, was accorded a special vote of thanks for the excellent service he had rendered during that long period. As a mark of the Board's appreciation, Mr. Phillips has been nominated as a Vice-President of the Institution.

To fill the vacancy caused by the retirement of Mr. Phillips, Mr. John Stewart, who was recently appointed a member of the Board, has been unanimously nominated for the Honorary Treasurership.

Mrs. M. Cuthbert very kindly accepted an invitation to become a member of the Ladies' Visiting Committee, and was duly appointed.

Dr. John B. Graham, who had held the position of Honorary Aural Surgeon for a period of eleven years, resigned in October last and was accorded the warmest thanks of the Board for his services.

To fill the vacancy Dr. Garnet Halloran was appointed as Honorary Ear, Nose and Throat Specialist.

The Directors gratefully acknowledge their indebtedness to the members of the Ladies' Visiting Committee for the efficient service they have rendered during the past year, for many valuable recommendations in regard to the internal management of the Institution, for their generous encouragement of the children by providing prizes for needlework, cookery, laundry work and darning, and for assistance in many other ways. The help so cheerfully and willingly given by the Ladies' Committee in this labour of love is deserving of the highest praise.

The Directors also desire to place on record their high appreciation of the kindness of the Honorary Staff in the performance of their voluntary service whenever called upon. A special vote of thanks has been accorded to them for the thoroughly satisfactory manner in which their various duties have been carried out. If the services thus rendered had to be paid for it would mean a considerable addition to the expenditure of the Institution.

By the death in England in March last of Mr. F. H. Dangar, the Institution has lost a very generous friend. For services rendered many years ago Mr. Dangar was appointed a Life Director. He took a deep interest in the progress of the Institution right up to the time of his death. He was a liberal subscriber, and for about 50 years generously gave a substantial Christmas treat of fruit, cake and sweets to the pupils of the Institution, thus testifying his kindly sympathy with the afflicted little ones of the community.

Mr. E. J. Bignold, who for some years very ably filled the position of Honorary Gymnastic Instructor, has been compelled, owing to health reasons, to resign, but hopes to be able to resume again when his health will permit. In the meantime this special branch of the physical instruction of the pupils is being carried on by one of the permanent staff.

ALTERATIONS AND REPAIRS.

In order to provide additional class room accommodation, which was urgently needed for the efficient instruction of the children, a portion of the central block has been remodelled and converted into three class rooms, especial attention being given to the lighting and ventilation.

A part of the south-western wing which consisted of one large room was partitioned off and converted into four class rooms for the accommodation of the blind pupils. The adjoining portion of this wing has been fitted up as a convalescent ward for pupils recovering from illness.

A drying room for use in wet weather has been erected in the laundry and an electric fan has been installed in connection therewith.

Other minor alterations and repairs have been carried out and the premises now are in a satisfactory condition.

GENERAL.

In connection with the fitting up of the convalescent ward books, games, and pictures have been kindly provided by members of the Ladies' Visiting Committee.

CONCLUSION.

In conclusion the Directors desire to express their gratitude to all who have assisted in any way to promote the interests of the Institution and they hope that the support hitherto accorded will be continued and extended so that the important work of educating and training the afflicted little ones of the community may, under Divine guidance, be continued and carried to a successful issue.

W. H. SIMPSON, President.

ARTHUR H. LOVE, Hon. Secretary.

Sydney, October 10th, 1921.

AUDITORS' CERTIFICATE.

Having examined the books, securities, and vouchers of the New South Wales Institution for the Deaf and Dumb and the Blind for 12 months ended 30th September, 1921, we hereby certify that we have found everything correct, and the books kept in a thoroughly satisfactory manner.

T. F. H. MACKENZIE, F.C.P.A.

HENRY PRATT, F.C.P.A.

October 7th, 1921.

Superintendent's Annual Report.

10th October, 1921.

To the Board of Directors.

Gentlemen,

I have pleasure in presenting my eleventh annual report, which covers the first complete year following the unfortunate break of instruction during the year 1919. It is possible now to feel that we have to a great extent overcome the effects of this experience, and that the normal conditions of our school work are largely restored; although we have had to face a specially difficult position brought about by the loss of experienced lady teachers of the deaf. To previous losses we have this year had to add that of Miss H. M. McIntyre, who has resigned after twelve years devoted and efficient service, and the temporary loss of the services of our senior lady teacher of the deaf, who has recently completed a year's absence on leave, but who has happily returned to us and resumed her particularly valuable work.

Efforts have been and are being made to secure additional lady teachers of experience in our deaf school; but it has become increasingly obvious that we must rely on our own efforts for staff replenishments. We have now several teachers in training in our school, who promise to become competent teachers of the deaf; and it is my hope that this position will always obtain, and that at all future times we shall have junior teachers of our own training on our staff, from whom we shall be able to fill the inevitable vacancies that occur.

Alterations carried out during the year have considerably improved our school accommodation. Four classrooms have been provided for the blind pupils by the partitioning of a large school-room; and this has had the additional value of liberating rooms for use as girls' playrooms—a long-felt want. Three additional classrooms for deaf pupils have also been provided in the central block, which has thus been transformed into a compact series of six classrooms—the whole representing a really substantial advance on previous conditions.

About the usual number of new pupils has been admitted during the year; and the pleasing tendency previously noted towards earlier admission continues. The average age of this year's deaf admissions is 7 yrs. 9 mo.; and in about equal numbers they form two groups, one of which averaged 6 yrs. 1 mo. on admission, while the other averaged 9 yrs 9 mo. The former pleasingly testifies to a measure of success following our efforts to secure the advantage of earlier education for the children for whom we work; but the latter quite emphatically demonstrates that our efforts alone can not suffice to achieve this end. It is distressing to have to point out year after year that a considerable number of our pupils can never be really educated—inasmuch as they have been allowed to lose the essential impressionable earlier years of instruction; but it is impossible in a report on our schools to overlook what constitutes the primary difficulty and the most trying complication in our

work. Nor is it possible to omit an almost despairing reference to the continued apathy of the Government to a matter that is of national moment—the necessity for the compulsory school attendance of deaf and blind children.

Few pupils have been withdrawn against our wishes during the year; and, speaking generally, there is less difficulty experienced in inducing parents to extend the educational period of their children. This again is a pleasing indication. I am happy to be able to say that the pupils who have left us during the year are very satisfactorily placed in the wider world they have now entered; and that while their attainments necessarily vary because of their varying times at school—quite a number of them having had less than 5 years under instruction—they will reflect credit on their school.

Excellent all-round work is to be recorded in the Blind School. I have previously referred to the extremely high standard of work in this department; and it has been maintained. There has been much development among the younger children; and progress in all classes has been really good. The literary and general attainments of the senior pupils are distinctly high; and the attitude of all the children to their work is all that could be desired. Our efforts are strongly directed to develop normality of thought and action in our blind children—and with obvious success. Their general spirit is refreshing; and I am glad to feel that we are not only developing their intelligence and increasing their knowledge and capacity, but also laying the foundations of a healthy and normal manhood and womanhood.

Manual work has continued along previous lines. Progress has been consistently maintained, and results have been quite good.

There has been further satisfactory development in musical instruction. Under careful teaching, singing has improved; and the pianoforte pupils have, almost without exception, made good progress.

Alice Betteridge can now no longer be considered a school child. She terminated her actual school career at the end of last year as Dux of the Blind School, an extraordinary achievement for a deaf-blind girl, and the crowning evidence of her teacher's devotion and skill. Alice is now extending her education by general reading; and devoting a considerable portion of each day to the production of really exquisite articles of Handwork.

In the Deaf School there is, in spite of the extreme difficulties I have referred to, much cause for satisfaction. The work has been carried on under considerable strain, and progress and development have necessarily been affected by the particularly difficult conditions that have obtained. At the same time, much excellent work has been done; and I am able to feel that what has been done is probably the maximum of what was possible. The junior children have made a good beginning, and are a very bright, happy, responsive group. Those in intermediate stages have made steady progress; and the improvement in the seniors has been marked. There is a much improved language response and power, and a normality of thought and attitude which testifies to the soundness of the educational work of the school. The atmosphere of the school is a particularly good one; and the relationship between the teachers and pupils is sound and helpful.

Good work has been done in Drawing and Manual subjects. There have been developments in the Manual Work of both girls and boys. The girls' cookery class has been replaced by a class in Domestic Science. The work of this class includes Cookery, Laundry Work, and Household Management; and I look for very valuable results. The special class in Fancy Needlework has continued to do well. There has been substantial improvement in the boys' manual work. The woodwork of some of the senior boys is exceptionally good, and opens out useful vocational prospects. The boot-repairing class, which, owing to unavoidable circumstances, was in suspense last year, has been resumed with a former pupil of the school, now an expert bootmaker, as instructor; and is doing very good work; as also is the special class in Gardening.

Physical culture work has again been extremely good, with excellent and obvious results. This is a very essential feature of our work, and one in which we may claim to excel. The physical training of our children in both schools receives consistent attention and care; and we have every reason to be gratified at the results of our efforts. Gymnastic Instruction has been continued—though we have unfortunately lost the services of our Hon. Gymnastic Instructor, who has, at least for a time, been compelled to abandon the work. He has done very fine work with our boys; and I trust that he may later be able to resume. In the meantime, the instruction is being continued by a member of the staff.

Our deaf boys have had very successful seasons in both cricket and football. In cricket they tied with two other schools for the Premiership of their grade in the Public Schools Competition. In football, they proved to be one of the best teams in the Public High Schools Association Football Competition. They lost only two matches throughout the season, and took the third position in the table. Three of our boys were selected as members of the Metropolitan teams for representative matches. Basket ball has been added to our girls' sporting activities. They are showing keenness and interest; and we are looking to them to hold their own against girls of other schools as successfully as our boys do in cricket and football.

The Children's Sports, which were held on November 3rd at the Sydney Grammar School Sports Ground, and attracted considerable attention, were a very emphatic success. These sports demonstrate in a specially pleasing way the success of our physical culture work, and their educative value on the public mind is great. A pleasant interlude at last year's Sports was the presentation to our cricket captain of a handsome donation of cricket materials by Mrs. E. Greville Grainger. In this reference to the Sports, I would like to express warm gratitude to the Sydney Grammar School for the very generous way in which the ground, with its excellent facilities, is placed at our disposal; and I would like too to express my warm appreciation of the indefatigable work of the teachers, which in such a large measure was responsible for the success achieved.

Of the general work and spirit of the teachers, I can speak in warm terms. Their interest in their work, and their earnest and enthusiastic support, have lightened what has been an unusually trying and difficult year. Additional strain has been placed on the experienced teachers and staff, and their response has been effective. The junior teachers now in training have all done well,

DEAF BOYS AT DRILL.

SENIOR DEAF BOYS AND THEIR CLASSROOM.

and from each of them I expect good work ultimately. The present condition of the schools is, having regard to the difficulties of recent years, almost surprisingly good. With a staff strengthened by the inclusion of additional experienced help with the deaf girls, and with the developing knowledge and value of the teachers now in training, the possibilities will be great; and it is my earnest hope that we shall before long see greater developments than at any previous time, and that our work may be of a higher standard than has ever yet been attained.

One further deaf soldier has been given a course of instruction in Speech-reading by me during the year; and one other is now nearing the completion of his course. This will probably terminate what has been an interesting and valuable branch of voluntary service.

I beg to remain, Gentlemen,

Yours faithfully,

HAROLD EARLAM,

Superintendent.

Inspectors' Report.

The following extracts from the report of Messrs. E. A. Riley and J. Lynch, Inspectors of the Department of Education, are published for general information.

N.S.W. INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

BLIND SCHOOL:

The classroom arrangements have been greatly improved since last Inspection. When we visited the school last year three teachers were occupying a single room with their classes and considerable mutual distraction resulted. This year each of the four teachers has a separate classroom. The furniture is comfortable and the equipment sufficient and suitable.

The sympathy and confidence existing between the pupils and teachers is a very pleasing feature of the school life. Corporal punishment is used very rarely and there are no serious breaches of discipline or of good conduct. The moral tone of the school is distinctly good.

Sport and Physical Training give the pupils confidence and freedom of movement. In the large playground they race without fear, guided by the teacher's whistle, and even in the more restricted spaces they are able to run without fear of collision with walls or the posts of the weather-shed. The marching and physical training are effectively controlled.

Even Alice Betteridge who at an early age became both blind and deaf takes her place in the physical training squad and performs the movements of the Swedish exercises with success. This girl reads standard books with enjoyment and understanding, knits and guides herself about the premises successfully. With only the sense of touch to appeal to Miss Reid has achieved a triumph that is without parallel in Australia. Miss Reid alone is responsible for Alice's education.

INSTRUCTION:

The pupils write in Braille and read their own manuscripts and the books from the well stocked library. In the second class (under Miss Nicholson) a boy under 9 years of age was reading in Braille with intelligence and appreciation, stories from Kipling in their original language. The reading of the advanced pupils is restricted to the books obtainable only from England. Nothing Australian is available, and the essential differences between English and American Braille further limit the supply of reading matter. The only History the pupils have to read is Green's History of the English people, and as it is considered too difficult it is not used by them. General information, Australian History and Geography, can be given only in the form of oral lessons. Within the limits set excellent work is done. The teaching is necessarily individual in treatment.

The frame used in the Arithmetic lessons is suitable for purposes of calculation only. The setting out of questions is not possible. Mental exercises only form the principal work done in

class. The senior pupils successfully worked mentally exercises in household accounts, fractions, decimals, percentages and simple interest, equivalent in range to the work of 6th class in primary schools.

Relief maps are used in the teaching of Geography, but the limited experiences of the pupils render any adequate treatment of the subject very difficult. As far as possible opportunities are provided for increasing their range of experiences. The elder pupils have been in the surf. They attended Parliament and heard part of the debate on the motion of censure. Last evening ten or twelve of them were being taken to a concert by Dame Clara Butt.

The knitting of the blind pupils and the basket making and raffia work prove that their manual training is successful. The Blind children also do some limited gardening. The pupils could distinguish different flowers by touch and keenly appreciate their presence in the room.

The Singing taught by Miss Dawson, a blind teacher, is very fine. The tone is good and the pupils brightly sing part songs and four part rounds. Ten of the pupils are taught the piano by Miss Dawson. The elder girls play well and the touch of all is well developed. All these pupils keenly enjoy their music.

DEAF SCHOOL:

The main educational problem of the institution is found in the Deaf School. Coming as the children do, without any language equipment, they enter on their school course at 6, 7 or at times even 10 years of age or more, with barely the intellectual equipment of the child of two or three. The major problem of the school is, therefore, to give these languageless children a working command of English. The difficulty of this task calls for devotion and skill of a high order and the problem has not so far been solved because at bottom it is an economic one.

In the matter of devotion the staff of the Deaf School leaves nothing to desire. No social service in the State is done with greater sympathy and enthusiasm than by these teachers. But for this most difficult of all educational work very high qualifications beyond these indispensable ones of sympathy and enthusiasm are required. The entrance qualifications of student teachers should be not less than the Leaving Certificate to secure the necessary assurance of intellectual power and culture. Following upon some years of training as student teachers such as the present Superintendent is so well qualified to give, there should be the certainty of adequate pay with due increments for length of efficient service, security of tenure, and adequate provision for pension.

INSTRUCTION:

The methods of treatment are found in the instruction of the deaf in this schools (a) Oral, (b) Manual, (c) Mixed. We think it likely that these tend to defeat each other to some extent, but while the school is conducted under its present limitations there is probably no escape from the present situation. Modern theory tends to eliminate (c) and to take methods (a) and (b) in entirely separate schools. Oral treatment only is given to normal pupils who enter young, the manual method being reserved for (1) mentally defective deaf children, (2) those unfortunate children who are intellectually normal but who for some reason are long past the proper admission age at the time they come to the school.

What little instruction the former are capable of receiving must be given manually because of the difficulty of getting into touch with the children's feeble minds, while in the case of the latter the precious school years are so few that time cannot be spared for the time-consuming foundation work required for the oral method. At present there is one class where the silent method is used exclusively. This class consists of late enrolled pupils whose education an attempt is being made to expedite. Another class is receiving more manual than oral teaching. This consists of children of inferior mental powers though not actual mental defectives (of whom only two or three were noted during inspection). The bulk of the classes are receiving predominantly oral instruction.

Speech Training: The speech of deaf children is almost always distressing to hear on account of its non-human characteristics. We desire to express our admiration of what is being done to overcome this. The enormously difficult articulation work is being done with great skill. The lowering of the admission age in recent years is giving an opportunity for speech-training which is being utilised to the full. Individual words are often said by the children with an intonation which is nothing short of pleasing. In the middle school, phrases and occasionally whole sentences are said so as not to be unpleasant to the ear; though when the children become excited the effect of this training is apt to evaporate and the characteristic deaf intonation to recur. We believe the quality of voice that is being secured particularly in the lower school is a distinct advance on that found last year.

Language Acquisition: Gesture, pantomime, and dramatisation are freely used in developing meaning and building up language. Some children show considerable skill in lip-reading, especially of the frequently recurring phrases of ordinary intercourse.

Composition: As soon as the nucleus of working vocabulary is built up the children begin to express themselves in writing. The happenings and interests of the day are regularly recorded. A page or more of such a diary is often written in 20 minutes. The form is apparently always that of the simple sentence.

Spelling: Spelling appears to present surprisingly little difficulty to those deaf children. A word is rarely mis-spelled. It would seem that the primacy given to sight in these children deprived of hearing causes an active attention to form, seldom found when children get their language mainly from the ear.

Writing: The general standard of the writing is also high, though there is a little falling off at times in the upper school when writing comes to be more freely used as a means of expression.

The Language Problem: The language problem for these deaf children is still but partly solved. In the first place this is the result of unduly late enrolment. No class has averaged as high as six years of instruction in the school. As they are admitted with the intelligence of children of two or three, it is hardly to be expected that the language equipment of the highest class would exceed that of the ordinary child of 8 or 9 years of age. An interesting table given herewith shows the improvement made in the average admission age which in 1911 was 10 years, 7 months, and which has continuously fallen till it reached 7 years 9 months in

1921. This shows clearly that the outlook for the future is much improved.

But the teachers are by no means satisfied with what has been achieved, even allowing for the drawback of late enrolment. The children achieve very little power to read books, by far the most important key to the world of thought for them, cut off to such an extent as they are, by lack of the ready means of communication possessed by the ordinary speaking child. That this limited achievement in the power to read is not a necessity for the deaf child, the Institution has itself shown in its crowning achievement, the education of the blind-deaf-mute, Alice Betteridge, who reads with keen enjoyment the words of standard English authors. On the intellectual side the great call upon the teachers of the Deaf School is to speed up the acquisition of language and the power to read. Until this is done the bulk of these children will be leaving school just when they reach the point at which education in the fuller sense has been made possible by the acquirement of the necessary tools.

An interesting experiment which is contemplated is likely to go far towards achieving this end. The teaching of language in the past has been largely, though by no means exclusively, synthetic in method. It began with elements of words and gradually worked to the sentence. Without abandoning work of this kind, the Superintendent is proposing a more adventurous attack on the language problem—an application of the direct method of acquiring English such as modern psychology is giving countenance to. The psychologist points out that the ordinary child begins with a blurred conception of a language whose whole elements gradually clear up as they recur in somewhat varying wholes, but he does not begin with clearly defined elements which he combines into sentences. If the Superintendent's anticipations are confirmed, this alteration in method will bring the deaf child much sooner to the stage where he can attack reading in much the same adventurous way that he has already attacked language. We look forward with high interest to the outcome of this new method for the acquisition of language by the deaf.

Handwork: The fine course of previous years has been continued, and indeed somewhat extended during the year. It covers for the boys, mat-weaving, clay-modelling, paper-cutting, cane-weaving, light wood-work, advanced wood-work, boot repairing and gardening; for the girls, raffia work, knitting, sewing, machining, dress-making, fancy needlework, domestic science (cookery, laundry work, household management), and darning.

The work is of high quality and is done with keenness by both boys and girls. At the upper reaches it is definitely vocational. The preparation of the children for the wage-earning duties of adult life receives close attention.

The ventilation of the woodwork room is defective. The classrooms are much improved since last inspection and give comfortable working conditions.

Physical and Moral Training:

As was the case last year we were deeply impressed by the value of the work being done in this direction. The children are, with

few exceptions, well set up. They play their games with zest and hold their own against pupils from outside schools.

In the handling of the children we saw not the slightest trace of "institutionalism." The relations between pupils and teachers are delightful to see, and develop everything in the pupils that has civic or individual worth. Some of the classes in the Deaf School are unduly large.

REPORT OF PROCEEDINGS OF THE SIXTIETH ANNUAL GENERAL MEETING.

Held at the Institution, City Road, Darlington, on Monday, 24th October, 1921, at 3 p.m.

His Excellency the Governor (Sir Walter E. Davidson, K.C.M.G.) presided, and was accompanied by Dame Margaret Davidson and Major Egerton, private secretary.

There were also present—Sir Henry and Lady Braddon; Mr. W. H. Simpson, J.P., President of the Institution; Mr. Frederick Phillips, retiring honorary treasurer; Mr. John Stewart, incoming treasurer; Mr. Arthur H. Love, hon. secretary; Dr. W. H. Crago, Messrs. Aubrey Halloran and Thomas S. Holt, directors; Dr. E. Selwyn Harrison, honorary physician; Dr. Garnet Halloran, hon. ear, nose and throat specialist; Mesdames Cuthbert, T. Storie Dixon, J. H. Goodlet, Linsley, Munce, Rigg, Rofe and Shand, members of the Ladies' Visiting Committee; Mr. A. W. Green, Boarding-out Officer, State Children's Relief Department; Rev. Dr. Carruthers; Rev. Alan Whitehorn; Mr. E. Grainger, Mrs. Lemaire, Mrs. Robinson, Mrs. Coxall, and many other ladies and gentlemen.

At the request of His Excellency the Hon. Secretary read the advertisement convening the meeting.

Copies of the report and balance sheets, having been distributed among the audience, were taken as read.

His Excellency moved the adoption of the report and in doing so referred to the salient features therein and described the Institution as one of the best-conducted establishments in Australia.

The motion was seconded by Mr. W. H. Simpson and carried unanimously.

2nd Resolution:—

"That the thanks of this meeting are hereby given to the Government and Parliament for the annual donation of £450 in aid of the funds of the Institution."

This was moved by Mr. Frederick Phillips, seconded by Mr. John Stewart and carried unanimously.

The 3rd Resolution moved by Sir Henry Braddon, seconded by Mr. Aubrey Halloran, as follows:—

"That the following gentlemen be members of the Board of Directors for the ensuing year:—

President: W. H. Simpson, Esq., J.P.; Vice-Presidents, William Rigg, Esq., J.P., Dr. T. Storie Dixon, John F. Rofe, Esq., and Frederick Phillips, Esq.; Hon. Treasurer: John Stewart,

Esq.; Hon. Secretary: Arthur H. Love, Esq.; Directors (to fill vacancies): John H. S. Angus, Esq., Thomas S. Holt, Esq., and Robert Vicars, Esq.; and that the following do constitute the Medical Staff:—Hon. Consulting Physician and Hon. Medical Inspector: Dr. George E. Rennie; Hon. Consulting Surgeon: Dr. Charles P. B. Clubbe; Hon. Ophthalmic Surgeon: Dr. J. C. Hailiday; Hon. Ear, Nose and Throat Specialist: Dr. Garnet Halloran; Hon. Physicians: Dr. P. Sydney Jones and Dr. E. Selwyn Harrison; Hon. Dentists: A. G. Gabriel, Esq., and J. W. Cliff, Esq.”

Carried unanimously.

4th Resolution moved by the Rev. Dr. Carruthers, seconded by the Rev. Alan Whitehorn, as follows:—

“That the thanks of this meeting are hereby given to the Directors, Ladies’ Visiting Committee, Honorary Staff and the Officers of the Institution for their services during the past year.” Carried unanimously.

A vote of thanks to His Excellency for presiding was moved by Mr Simpson and carried by acclamation.

The meeting was brought to a close by the singing of the National Anthem, after which the visitors inspected the pupils at their work in the open-air classrooms and were entertained at afternoon tea.

COLLECTIONS BY FRIENDS.

The following is a resume of Subscriptions collected during the year by friends in the Country Districts, full details of which are given on other pages. The warmest thanks of the Board have been awarded to the ladies and gentlemen named for their generous and valuable assistance:—

Alehin, Mrs. Mary, Illabo	5	0	0
Rowlinson, R. C., Coraki	5	5	0
Sheaffe, Miss, Milton	4	10	6
Sanders, George, Lithgow	5	8	3

Gardening	Deaf Boys	Saturday	9 to 12	
Boot-repairing	Deaf Boys	Mon. Thurs.	7 to 9	Mr. W. Rider

Swimming Instruction regularly given during Summer months.

INFORMATION AND DIRECTIONS RELATIVE TO THE ADMISSION OF CHILDREN TO THE INSTITUTION.

1. Applications must be in writing, addressed to the Secretary, sent before the child is brought to the Institution, and should contain as full information as possible. The necessary forms can be obtained of the Hon. Secretary.

2. Pupils are admissible from any part of the State of New South Wales, and, under certain conditions, from other States.

3. No child deficient in intellect, subject to fits, or unable to wash and dress itself, can be considered a fit subject for admission; and no child, whose conduct or habits are deemed by the officers to be objectionable will be allowed to remain in the Institution.

4. No child shall be admitted at an age younger than five years, nor older than twelve years, unless under special circumstances, to be decided by the Board.

5. No child can be admitted until the medical certificate has been obtained, and it must be understood that no children are eligible for admission until every means have been tried for restoring their sight or hearing, as the case may be.

6. Children, on entering the Institution, are required to have two complete suits of clothing for school or week-day wear, to be of dark colour, and a better suit for Sunday, and to be provided with clothing (see list) by their parents and friends during their residence. Each child must be provided with a box or trunk, in which to keep clothing when clean.

7. Any amounts remitted to the Secretary for the purchase of clothing will be expended under the direction of the Board of Directors.

8. School fees vary according to the circumstances of the parents: the highest fee is £50 a year. If the parents are not able to pay that amount, a smaller fee will be accepted.

9. In the case of children whose parents are unable to pay any fees, a certificate of their inability to pay must be obtained from known individuals.

10. Fees are payable in advance, and date from the time of admission.

11. Children cannot be permitted to leave the Institution unless with the direct sanction and authority of the Board of Directors.

12. In addition to the ordinary scholastic subjects, every child in the Institution receives some form of manual training, further particulars of which are given on the previous page.

13. The vacations are 6 weeks at Christmas and 3 weeks at mid-winter; and it is essential that pupils should return to the Institution on the day fixed to commence duties after each vacation, "and with their clothing clean and in proper order." (See list.)

14. Pupils are expected to remain in the Institution until they attain the age of 16 years, and except under very special circumstances, no child will be allowed to remain after attaining this age. The attention of parents is specially drawn to this in the hope that they will realise the necessity for sending their children to school at an early age. Failure to do this means depriving the children of at least a portion of their education.

15. Except under special circumstances children will only be admitted at two periods of the year, viz., January and July.

16. It is requested that all communications be addressed to

ARTHUR H. LOVE, Hon. Secretary,
City Road, Darlington, Sydney.

SPECIAL INFORMATION.

"The object of this Institution is the education and maintenance, and, as far as practicable, the advancement in life of deaf and dumb and blind children."

The Institution is open to Subscribers and other Visitors on Tuesdays and Fridays, from 2 to 4 p.m., and at other times on special order from the Honorary Secretary or a Director.

The Parents and Friends of children are admitted once a fortnight, on Thursdays, between the hours of 3 and 5 p.m.

The children are permitted to leave the Institution to visit their friends once a month, on special written application being made to the Honorary Secretary.

When a case of serious or infectious illness occurs while a pupil is at home, it must be reported to the Hon. Secretary, and the child must not be returned to school until all danger of infection has passed, and a medical certificate to that effect produced.

Forms and all particulars for admission of pupils can be obtained of the Honorary Secretary.

Subscriptions and donations will be thankfully received and acknowledged by the Treasurer, the Secretary, or at the Institution.

The Meetings of the Board of Directors are held on the Second Monday in each month, at 3 o'clock p.m. The Ladies' Visiting Committee meet at the Institution on the last Friday in each month, at 3 o'clock.

The cost of passages to and from the Institution must be paid by the friends of the pupils, the Board having no fund for this purpose.

All communications to be addressed to Mr. Arthur H. Love, Honorary Secretary, at the Institution, City Road, Darlington, Sydney.

Money orders should be made payable to the Secretary or Treasurer, at the General Post Office, Sydney.

It is highly necessary that the Parents or Friends of children should notify the Secretary of any change of residence, so that, in case of illness, or other cause, immediate communication may be made.

The Public, Subscribers, and friends of the Institution are earnestly entreated to notify the Secretary of the existence in their districts of any Deaf and Dumb or Blind children, not under instruction, it having been a source of great regret to the Board to find that several children have passed the age of admission, simply from their not having come under the notice of some kind friends who would take the necessary steps to enable them to be brought within the advantages of the Institution.

Institution for the Deaf and Dumb and the Blind

CITY ROAD, DARLINGTON, SYDNEY.

Clothing Requisition

Each child on entering the Institution must be supplied with the following quantity of Clothing:—

For Boys.

- 1 Navy Serge Suit
- 2 Dark Tweed Suits for Senior Boys, or
- 3 Pairs Knickers, and 4 washing Coats for Junior Boys
- 4 Day Shirts
- 2 White Soft Shirts, with Collars attached
- 3 Under Shirts
- 3 Sets Pyjamas
- 6 Pairs Socks or Stockings
- 2 Hats—Grey Felt
- 12 Collars
- 12 Handkerchiefs
- 2 pairs Braces
- 3 Dark Ties
- 1 Hair and 1 Tooth Brush
- 1 Rack and 1 Fine Comb
- 1 Bathing Costume
- 2 Pairs Boots
- 1 Pair Sand Shoes
- 1 Overcoat
- 1 Navy Football Jersey
- 1 Pair White Drill Trousers
- 1 Tin Trunk—24 inches.

For Girls.

- 2 Navy Blue Serge Skirts
- 1 White Drill Blouses
- 4 Pairs Navy Blue Drill Bloomers
- 2 White Petticoats
- 4 Camisoles (Senior Girls)
- 6 Pairs Socks or Stockings
- 2 Panama Hats and Navy Bands
- 12 Handkerchiefs
- 2 Navy Blue Blazers
- 1 Rainproof Coat
- 6 Pairs Drawers—3 Calico, 3 Flannelette
- 6 Singlets—3 Summer, (short sleeves); 3 Winter weight, (long sleeves)
- 3 Nightgowns
- 2 Stay Bodices
- 1 Bathing Costume
- 1 Rack and Fine Comb
- 1 Hair and 1 Tooth Brush
- 2 Pairs Boots and 1 Pair Sand Shoes
- 1 Tin Trunk—24 inches

Parents are requested to interview the Matron before purchasing the outfit.

All clothing must be plainly marked with the child's name in full. The girls' dresses should be print for summer wear, and a warmer material for winter wear.

Boys' Suits should be of dark-coloured washing tweed or other similar material.

On the children visiting their homes during vacation, it is requested that all clothing be washed and put in thorough repair before being sent back with them.

From time to time an account showing the amount due will be furnished, and it is requested that this amount be paid without delay.

ARTHUR H. LOVE,

Hon. Secretary.

City Road, Darlington,

Sydney.

HINTS TO PARENTS OF BLIND CHILDREN.

Remember that your child is just an ordinary child—deprived of sight—and treat him accordingly. Teach him to walk as soon as you would if he had his sight, and train him to use his limbs. He is dependent on the sense of touch (feeling) for much of the knowledge that is received by other children through the eye; and from the earliest possible time should be taught to observe shapes, sizes, weights, etc., by feeling things, and to find his way about the home and surroundings.

Do not make the mistake of imagining that because your child is blind it is necessary or kind to do almost everything for him. It is quite unnecessary, and, hearing in mind the fact that the more intelligent occupation the child has, and the more he discovers that he can do for himself, the less will be felt the deprivation of sight, it is positively unkind to bring him up in a helpless manner. Let him learn to wash and dress himself, and to attend to his other personal requirements, and to be neat and tidy. Teach him to feed himself, and be as particular over his table behaviour as you would be with a sighted child.

Teach him to walk correctly and carry himself well. Be very careful to check at the very outset any little objectionable mannerism that may show itself. Some blind children have a tendency to facial grimace, screwing the fingers into the eyes, rocking the body backward and forward, or from side to side, and if these practices are not stopped on their appearance they may develop into habits that will require years to eradicate.

Teach your child all the little nursery rhymes, fairy tales and songs that go to make childhood happy, and always endeavour that he may hear only such things as you would like him to remember.

Do not let him feel that his blindness makes him different to other children; but help him to realise that he is just the same as they, and "as good as anybody else." Let him help in all the little domestic operations in which children assist their parents.

Do not discuss his blindness in his presence—and show your sympathy for him, not by bewailing the fact that he is blind, but by helping him, in ways suggested above, and in other ways that will suggest themselves to any intelligent parent, to overcome the disabilities of blindness to the highest possible degree. Do everything necessary to secure his happiness—but remember that the surest way of making him miserable and unhappy is to "spoil" him by placing him outside any form of discipline.

As soon as he is old enough—at 5 years of age or thereabouts—send him to school. There he will be surrounded by people whose lives are devoted to the education and care of children such as he; and it is only there that he will be able to secure the education which will enable him to take his place in the world, and which will supply him with the knowledge and mental development necessary to his personal happiness and advancement!

Do not take your child for examination or treatment to any but a duly qualified medical man. Secure for him the best medical advice obtainable, but on no account go to any "doctor" who has no medical degree. There is grave risk of serious damage resulting from the interference of any unqualified person with such a delicate organ as the eye.

If you act on the lines suggested here, you will be doing much for your child. He will be brighter and happier at home, and when he comes to school he will be in a better position to benefit by the instruction given, and his educational advancement will be more rapid.

The Receipt of the Reports of the Undermentioned Institutions is thankfully acknowledged.

FORM OF BEQUEST.

TO THE

NEW SOUTH WALES INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

I give and bequeath unto A.B. (or unto my said executors or my said trustees as the case may be) the sum of.....upon Trust to pay out of my Personal Estate to the Treasurer for the time being of "The New South Wales Institution for the Deaf and Dumb and the Blind "(Incorporated), City Road (late Newtown Road), Darlington, such sum as a donation to the said Institution.

The following is the proper attestation to a Will :—

Signed by the above-named testator as and for his last Will in our presence who in his presence at his request and in the presence of each other have subscribed our names as Witnesses.

Signatures and Addresses.

PREVENTION OF BLINDNESS.

It has been estimated that 40 per cent. of blindness is due to the disease Ophthalmia Neonatorum, or Infantile Ophthalmia. In other words, it is probable that four out of every ten blind people have lost their sight from this cause.

Ophthalmia Neonatorum is a disease which attacks the eyes of newly-born children, their eyes being infected by the mother during the birth. It is very dangerous and infectious, and unless prompt measures are taken on its appearance, it almost inevitably results in blindness. Sometimes the disease yields to treatment, but in this disease perhaps more than in any other is prevention better than cure.

The attention of parents, midwives and others is called to the following instructions, which, if invariably carried out, would do much towards minimising the amount of blindness in the world, and preserving the inestimable blessing of sight to children whose eyes are attacked by the dread disease, Ophthalmia Neonatorum.

1. When a child is born, see that the eyes are carefully and thoroughly washed out. In lying-in institutions and in other cases where there is danger of infection, the midwives should be instructed to instil a drop of one per cent. silver nitrate solution, or twenty-five per cent. Argylol solution into the baby's eyes.
2. Especially in the first week or two of the child's life, carefully examine the eyes for signs of inflammation (redness of the eyes or lids, discharge, or swelling).
3. If there is any suggestion of Inflammation, SEND FOR THE DOCTOR. Do not wait to see if the condition of the eye becomes worse—remember that the sight of the child may be imperilled.
4. Previous to the doctor's arrival, wash the child's eyes in clean warm solution of Boracic Acid every quarter of an hour; using clean cotton wool, and being careful not to use the same piece of cotton wool twice, and being also careful not to touch both eyes with one piece.
5. OBEY THE DOCTOR'S INSTRUCTIONS IMPLICITLY. Remember that once the child's sight is destroyed, it can never be regained; and remember, too, that carelessness or failure to properly carry out the doctor's instructions may doom the child to lifelong darkness.

The question of the prevention of blindness from Ophthalmia Neonatorum is a big medical, social and political problem. Other phases of this subject may be referred to at a later date.
